DIARY NOTES

DD/S

25 February 1971

Office of Logistics Expenditures: On 23 February Mr. Blake advised that he was imposing some strict limitations on O/L expenditures in order to ensure that he would live within his funds allocation for FY '71. I passed this to [REDACTED] noting that this O/L action included requiring components to pay for unobligated renovations. [REDACTED] wanted to look at this within PPB.

On 25 February [REDACTED] reacted to say that (a) Colonel White actually does not consider that holdback funds still belong to the directorate concerned; (b) any items on our 5% holdback list which we consider monetary should be brought without delay to Colonel White; (c) any unbudgeted items which are approved are charged against the directorate holdback rather than being over and above funds allocated and held back.
